

Accessories

Part Numbers

110 728	Connecting Bridge, 10 pole
110 729	Labelling Plate

Connecting Bridge

The Connecting Bridge allows easy connection of the terminal blocks of the coupling modules, thus avoiding individual wiring of each module. The Connecting Bridge is available in 10 pole size, spacing 11.5 mm.

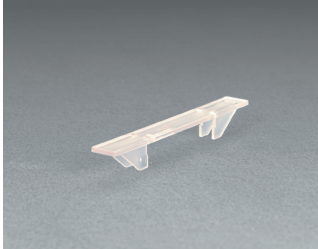

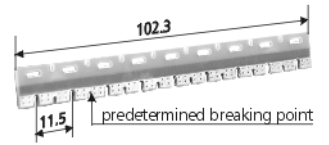

Technical Data

Rated voltage	250 V
Rated current	2 A
Pole size	10
Spacing	11,5 mm
Upper category temperature	100 °C
Lower category temperature	-20 °C

Materials

Printed circuit board surface	Fr4 hot air tin-plated, lead free flame resistant and self-extinguishing per UL 94-V2
Type of protection	IP20 when correctly used and installed

Dimensions

Labelling Plate

The Labelling Plate was especially designed for the coupling modules with terminal blocks.

Material

ABS, crystal clear
